- SOAP
- C#
- jQuery
- JS
- Restful Web Services
- Axure

TECHNICAL PROJECTS

Food Ordering Kiosk

- Final project for Component-based Software Design course, which mimics the food ordering system at Wawa.
- C# windows form app interacting with an SQL database.

Dating Website

- Final project for a course in Client-side Scripting. The application was a mock dating website.
- Designed website using HTML, CSS, and JS; developed RESTful API to handle interactions with a database; utilized jQuery and AJAX in order to make asynchronous HTTP requests.

Twitter-bot

- Twitter bot that posts twitch.tv clips to twitter.
- Scrapes a subreddit using PRAW or Python Reddit API Wrapper; Selenium browser automation to download clips and Twitter API to post clips.

Instagram Clone

- Final project for a course in Server-side Web development.
- Designed website using HTML/CSS/Bootstrap; developed a RESTful API for most of the functionality; SOAP API for direct messaging; designed data model/database and implemented stored procedures to prevent SQL injection.

Information Technology Capstone Project – PHA CARES Tracker

- Developed application for LNPWI for data tracking purposes, which allows the storage/retrieval of data related to PHA residents.
- Followed agile development by working in sprints and scrums and weekly testing.
- Solution was coded with C# and ASP.NET and used git for code management; deployed on AWS; prepared all final documentation for the system

PROFESSIONAL EXPERIENCE

Central MHMR Help Desk Technician (May 2019 – August 2019)

- Served as a help desk employee for a company of ~50 employees, handling ~10 requests per day utilizing Spiceworks ticketing system.
- Assisted full-time employees with various technical problems, as well as repaired several different hardware, including laptops, tablets, etc. Developed technical troubleshooting skills to efficiently resolve technical issues.

Dairy Clerk, Wegmans Food Markets (March 2015 – Present)

- Provided customer service to customers while on the front end. Developed customer service skills by resolving customer issues/difficulties.
- Transferred from front end to dairy department where I continued to hone customer service skills.
